THE SUPPORT WORKERS NEED. THE VERSATILITY COMPANIES **DESIRE.**

Designed with support in mind.

Designed for those who log many hours at their desks, Bolton provides the adjustability and support today's workers need.

Comfortable to the core, Bolton comes with a generous seat cushion, ample lumbar support, adjustable arms and seat height, and synchro-tilt mechanisms that conform perfectly to a range of body types.

Bolton is also highly versatile. Available in high-back with optional headrest and mid-back versions, it's the task chair that goes from the reception desk to the executive desk.

Designed for focused tasks or working on the go, Bolton offers the perfect amount of sophistication and comfort. Bolton makes a style statement while supporting users throughout the day. It's easy to fine-tune this highly adaptable chair to meet individual needs.

From seat height and depth adjustments to a body conforming back and 4-D arms, Bolton offers users the essential features for comfort. Even more support is delivered with the choice of a center tension or an automatic weight-activated synchro-tilt mechanism that supports and moves with each person's natural pivot points and seated body motion.

Need a chair for the task at hand? Look no further than Bolton.

FINE-TUNED FOR COMFORT.

Center tension synchro-tilt mechanism with upright back-lock

Because all users are created differently, Bolton is designed to adjust to a variety of body types. Users can easily set the seat back tension for comfort.

Arm height, width, depth, and rotational adjustment (available armless, with 1-D, 3-D, or 4-D arms)

Bolton can be easily tuned to each user's needs and preferences (shown with 3-D arm).

Seat height and depth adjustment accommodates numerous body dimensions

Bolton's sliding seat pan offers 3" of adjustment.

Optional headrest – high-back model

Ergonomically designed for comfort, the optional headrest supports your head and neck in a variety of postures. Height and depth adjustable.

Body conforming or optional adjustable lumbar support

From the lower back up, Bolton supports the user for a full day's work.

Weight-balanced synchro-tilt mechanism with multi-position back-lock

Choose the optimal back position and lock into place. Control is located on the left underside of the seat. This weight-balanced mechanism automatically adjusts seat back tension, so users don't have to.

Molded seat cushion and lower back design ensure comfort and prevent fatigue

Shaped to conform to the individual, Bolton's chair back naturally provides exceptional lumbar/lower, middle, and upper back support. Plus, a generous molded foam seat cushion offers years of comfort.

DESIGNED TO SUPPORT

Design Bolton just the way you need it for optimal ergonomic support. Bolton is a full featured task chair series with versatility—including an array of back mesh and seat upholstery colors and options—to suit any space. Plus, it's configurable to support a user's size, shape, tasks and preferences.

Features & Options

- Grey or black base, frame, and 1-D, 3-D, or 4-D arms
- Optional polished aluminum base
- Weight-activated synchro-tilt mechanism (automatic tension) with four-position back-lock
- Center tension adjustable synchro-tilt mechanism with upright back-lock
- Armless, 1-D, 3-D, and 4-D arms in black and grey to match the frame color. The 4-D arm with polished element, adjusts in height, from side to side, front to back, and rotates. Once adjusted for proper fit the 4-D arm-cap will lock into place.
- Optional headrest articulates and adjusts to support your head and neck throughout various working postures. Height and depth adjustable. (Available on high-back model)
- 3" seat depth adjustment
- Pneumatic seat height adjustment
- Optional adjustable lumbar support
- Solid or graduated stripe mesh in a variety of colors, or fully upholstered back
- High-back and mid-back version
- BIFMA level® certified
- CAL 117 or optional CAL 133 fire code compliance
- Certain pre-configured all-black models are in the Express Program (three-day ship)
